

IMPACTPAPE REC

Boosting separate paper collection

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 690182

Enabling the circular economy – boosting separate paper collection

European workshop

Brussels, 24 January 2017, 14h00-16h00

Target audience: European Municipalities

Municipalities that have not participated in the project are invited to join a workshop that will help them define the best solutions to increase separate paper collection in their territories. Together with the project partners, they will:

- Identify their main needs in order to improve separate paper collection
- Select good and best practices identified in the project to solve those needs
- Use the selection tree developed within the project to compare the results. A laptop is recommended for this part but is not compulsory.

Workshop for entrepreneurs

Brussels, 24 January 2017, 14h00-16h00 (separate venue)

Target audience: Waste collection companies and other interested parties

Waste collection companies and other interested parties can join this workshop to find out about :

- The opportunities that an increased collection and the installation of separate collection schemes represent
- The good and best practices identified in the project and how they can help boost those opportunities
